## Scoring four times in a row

MONASH University Foundation Year (MUFY) Malaysia has proven its mettle by receiving the Monash International Top Scorer Award for the fourth time. The award has been presented only four times thus far and MUFY Malaysia at Sunway University College has won it on all occasions.

MUFY is an Australian Year 12 equivalent pre-university programme that provides a smooth transition to higher education.

Graduates who achieve the required grades will automatically be accepted into Monash University.

The top scorer accolade is given to the highest total score achiever among all the MUFY students from providers around the globe.

The outstanding student this time is Chee Aiyng from SyUC, who received recognition during the MUFY Malaysia Graduation Night recently.

In addition, there are the Monash International Subject Awards, rewarded to the top scorers in each of the nine subjects offered among MUFY providers worldwide.

The recent graduation had SyUC students sweeping six of them, with Chee bagging the

subject awards for Mathematics A, Mathematics B and Physics. Other award winners include Serena Chua Yen Li (Economics), Marina Tan Su Min (English) and Hardev Singh Dhillon (Biology).

Among the Sunway MUFY students, Handy Santono emerged top scorer for Computer Science as did Tan Hooi Teng for Accounting.

Celestina Chin Ai Qi was chosen as valedictorian for her success in academic and non-academic activities, as well as leadership qualities.

Chee received a full scholarship to study Engineering at Monash University Malaysia.

Serena Chua and Handy Santono received partial scholarships from Monash University Malaysia.

Apart from academic opportunities, Sunway MUFY students have a chance to meet international students through various extra-curricular activities.

"We teach the students to appreciate people. We want them to be able to work together and appreciate each other's differences," said Sunway's MUFY director Adawiah Norli.

A total of 165 students received their MUFY graduation certificates.
