Quality Australian programmes at SYUC

SUNWAY University College (SYUC) offers a wide array of quality academic programmes from Down Under which ranges from pre-university to graduate degree courses.

The Australian-based programmes at SYUC are among the popular choices for students. The Australian Matriculation (AusMat) programme and the Monash University Foundation Year (MUFY) programme are the two pre-university programmes offered at SYUC.

For students looking for qualifications or entry to universities in all states of Australia and also in most universities in the United Kingdom, Canada, New Zealand, United States of America or even universities in Malaysia, the way to go is with the AusMat programme.

Similar to the final year (Year 12) secondary school programme of Western Australia, the AusMat programme emphasises equally between the coursework and the external examination. Thus, students who perform well throughout the year are amply rewarded.

"AusMat lecturers are dedicated towards building and nurturing the talent of young people.

"We also ensure that parents are kept informed of their children's performance and are able to involve themselves in the students' progress and development," said Ruma Lopes, Director of AusMat.

SYUC is the longest-running and the largest provider of AusMat worldwide.

The Monash University Foundation Year (MUFY) programme has also created world-class students of high academic standing and who have earned scholarships in their choice institutions.

The MUFY programme prepares students for entry into undergraduate courses both at Monash and most universities around Australia.

Students of this one-year full-time course are guaranteed placement in the undergraduate course of their choice at Monash University provided that entry requirements are met.

Equivalent of the Australian Year 12, the MUFY programme prepares students specifically for undergraduate studies at Monash University.

Similar to AusMat, MUFY also assess both coursework and final examination results. The final examination contributes between 50% and 60% of the total grades depending on the subject.

The MUFY programme accepts enrolment three times a year in January, March and August, providing timely links between the completion of studies at Sunway and the commencement of undergraduate studies at Australian universities.

The new batch of MUFY students will be attending their orientation session starting tomorrow. Students who are keen to join this intake should register immediately.

Sunway University College is also famed for its partnership with Victoria University, Australia. The Sunway-Victoria '3+0' twinning programme offers a Bachelor of Business that is very broad in scope and focuses on preparing graduates for the working world in specialised areas. Students may specialise in Accountancy, Banking and Finance, International Trade, Marketing, Accountancy/Banking and Finance, Marketing/International Trade and Marketing/International Tourism.

The '3+0' system gives students the choice to complete their entire degree in Malaysia if they do not intend to go abroad.

With this arrangement, students will be able to receive an Australian degree without having to leave Malaysia. Above all, parents will only be expensed at a favourable Malaysian cost in return for an Australian degree.

Although the classes are conducted here, the quality of the programme and the system of delivery remain similar to Victoria.

Firstly, the curriculum (including syllabi, assignments, tests and final examination) taught at Sunway is set by Victoria University and all tests and examinations are conducted on the same day and time as Australia. Secondly, quality education is assured through regular visits of teaching staff from Victoria University's Melbourne campus.

During these visits, the university professors teach and provide academic counselling to the students.

The Sunway-Victoria Bachelor of Business degree programme offers intakes in February and July each year.

Also in collaboration with Victoria University, SYUC offers the Master of Business Administration (MBA) programme.

As with all other courses offered, SYUC ensures that it provides an uncompromising quality of academic excellence in this programme.

The MBA at Sunway provides a source of readily accessible, and credible fraternity of market professionals that pose a variety of networking opportunities and collaborative partnerships by bringing together key industry players.

The experienced and dedicated lecturers at SYUC go beyond their class responsibilities and provide individual care and attention to ensure that students adjust and cope well with the syllabus demands.

The institution has made it possible for local students to experience an Australian education without even leaving home. Many foreign students have also come to SYUC for this same opportunity.

SYUC has built for itself a tradition of success in its brand of quality programmes.

Together with a dedicated team of academics and top class facilities, SYUC is the preferred choice for school leavers, parents and working professionals alike.
