CAMBRIDGE, Oxford, Harvard and Stanford are among the many top universities that accept students from Sunway College who have finished their A-Levels. Other universities that take in Sunway students are Duke University and Northwestern University in the US and the University of Nottingham, England.

In November's exam, 99 per cent of Sunway students passed, with more than half scoring at least an A.

This included 100 per cent passes in four subjects: further mathematics, accounting, law and general paper.

Seven A-Level students recently attended the International Science Summer School at the University of Melbourne, Australia.

The programme is ideal for entrance requirements into all international universities and is identical to those offered by secondary schools in Ontario, Canada. The programme graduate with the Ontario Secondary School Diploma and can enrol in universities in Australia, Canada, India, New Zealand, Britain and the US.

Sunway College students who have completed their A-level can seek admission in foreign universities such as Stanford, Harvard and Oxford, writes R.V. VEERA.

They can choose to further their studies in any of the twinning programmes offered at Sunway or pursue their education at the Monash University Malaysia.

The CIMP, which is approved by the Ministry of Education, offers two programmes.

For students with an adequate background, CIMP offers university preparatory or Ontario Academic Courses while those who need additional basic skills or knowledge are offered foundation or pre-OAC subjects leading to OACs.

The subjects offered by the OAC are: accounting, english, history, biology, physics, computer studies, geography (world issues), algebra and geometry, finite mathematics, families in society, economics, law, calculus and chemistry.

The pre-OAC courses offered are: English as a second language, computer fundamentals, mathematics and foundation science.

The main attraction of this programme is its flexibility as it allows students to do a number of subjects with which they are comfortable with over one semester.

They collect the number of subjects as they progress from one semester to the next until they pass the minimum of six subjects to graduate. Staffed by a majority of Ontario-qualified Canadian teachers, this programme is regularly inspected by the Canadian Ministry of Education in Ontario.

SUMMER FUN ... Sunway students have a blast at the International Science Summer School organised by the University of Melbourne

The CIMP offers two intakes each year: in January and July.

The next intake will be on July 12. Other pre-university programmes offered by Sunway are the Australian Matriculation Programme and the Monash University Foundation Year. Sunway College is located at 5 Jalan Kolej, Bandar Sunway, Petaling Jaya.

For details, call Sunway College at 03-5635-8622; Fax: 03-5635-8633; or visit its website at: www.sunway.edu.my.
