Sunway's 3+0 course, a savings of RM100,000

Students taking up an Australian degree course can now save up to RM100,000 by completing a full three-year Australian degree programme at Sunway College.

The college is offering a 3+0 Bachelor of Business programme with Victoria University which leads to a degree in Accountancy, Business and Finance, International Trade and Marketing.

Much emphasis is placed on practical training to ensure that the graduates are able to meet the needs of, and contribute effectively to the growth of, corporate Malaysia.

The programme has received high rating from former students.

Former student and president of the International Students Association of VicUni Chua Teck Boon said the course gave him the opportunity to learn things and acquire knowledge from different dimensions.

Realising that the computer is an essential tool for business, priority is also given to information technology through subjects such as Information Systems, Systems Technology and Systems Development.

The results obtained so far by students of the course have been encouraging.

In the recent first year examinations, 11 per cent of students scored distinctions in all subjects, 12 per cent scored seven distinctions and another nine per cent six distinctions.

The next intake for the course is next month.
