Students do college proud

FIVE Sunway College students achieved excellent results in the Monash University twinning programme's Financial Accounting paper AAF 1021/2 recently.

They are Ng Wai Leong, Sanjeev Palar, Hwang Min-Wen and Thong Kit-Son who scored distinctions in the Financial Accounting paper.

The students were assessed on their final paper, a mid-semester paper, a major assignment and weekly tutorial performance.

Also present with them when the results were released was college accounting lecturer T.M. Lim.

Students taking the course claim the system is advantageous as they could work consistently over a period and projects to achieve their final grades.
