**Twinning offers students full credit transfer**

By Josephine Veeran

**SUNWAY College is offering a wide choice of specifically accredited degree courses through its twinning partner, the Western Michigan University for its next intake in August.**

A pioneer in twinning degree programme, Sunway College allows Malaysian students to complete half of the study programme at Sunway, thus saving total cost of a foreign degree. The courses offered under WMU are Bachelor in Business Administration (BBA), BS in Computer Science, BA or BS in Communication, BSc in Engineering and BS in Natural Science.

Sunway College-Western Michigan University twinning degree programme guarantees a full credit transfer to Western Michigan University where students can complete their degree with access to all the resources of a large university. The WMU degree can be completed in 36 to 40 months of study depending on the degree programmes selected. Local students are required to complete three semesters per year and complete much of their undergraduate work locally before being transferred to the United States.

The twinning programme also offer savings in the total cost of a foreign degree, while providing a guaranteed transfer of course credits to the partner institution where students can complete their degrees with access to all the resources of a large university.

The Western Michigan University offers an outstanding study opportunities in as many as 167 majors and it is the No 1 US University. The Western Michigan University twinning programme has a long term commitment which began seven years ago and last April the 1,000th transfer student was sent to the United States.

Students from 13 Asian nations like Japan, South Korea, Mauritius, India, Pakistan, Maldives, Sri Lanka, Yemen, Myanmar, Thailand, Singapore, Brunei and Indonesia are also enrolled in the Sunway-WMU twinning programme. For more details on the twinning programme at Sunway College contact 03-7358622.
