

# POISED TO BE REGION'S TOP COLLEGE

By HANIM MELAN

IF you are contemplating sending your child to one of the many private education institutions in the country, the important question to ask is "What exactly do they offer?"

Sunway College, with its new and sophisticated RM120 million campus in Bandar Sunway, has always placed emphasis on two main objectives. First, the development of a complete individual, both academic and creative; and second, to offer the new generation of students a choice of dynamic and diverse courses.

## EDUCATION SPECIAL

Poised to become the premier college in the Asean region and with all it has to offer, Sunway College has become the most popular choice for parents and students alike.

A pioneer of the now popular twinning system, Sunway College prides itself in being the premier private institution of its kind in

the region through its constant search for new courses and innovative twinning programmes. Recently, two more universities, the University of Greenwich and Victoria University of Technology, were included in its twinning programmes bringing the total number of twinning partners to eight.

The new RM120 million Sunway College campus in Bandar Sunway

Through Sunway College's twinning programme, University of Greenwich in Britain, offers Quantity Surveying, Building Surveying and Estate Management.

Another British university twinning with the college is the ethnically diverse Leicester University, which was founded in 1923 and has an enrolment of students from 80 countries.

Students can choose to study either Law or Engineering degree courses at Leicester through Sunway. For its Foundation Engi-

neering course, students confident of their career choice can enrol right after SPM, studying subjects directly related and specially in preparation for Leicester's engineering degree course. The foundation courses, commence in May, and lead to the degree course study the following year.

For the Western Michigan University in the US, students are given a choice of five degree courses to study through Sunway. They are Business Administration, Computer Science,

Mass Communications, Engineering and Applied National Sciences.

Sunway's new twinning partner in Melbourne, the Victoria University of Technology (VUT) offers very dynamic majors through Sunway College. Students enrolled in this programme can choose to major in Travel and Tourism, Catering and Hotel Management, Accounting, Retail Management or International Trade, under VUT's Bachelor of Business degree programme.
